BRYAN ONCE MORE
HAS THE COUNTRY
TALKING OF HIMSays He Must Spend Vacation
on Lecture Platform as
Salary Is Too SmallRESOLUTION IN SENATE
ASKING WILSON TO ACTPresident Requested to Rec-
ommend Recompense Suf-
ficient to Keep the Secretary
Attending to Public Business

WILLIAM J. BRYAN

He again is in the limelight, this time because of his radical announcement that he was going to deliver lectures during his vacation so he could earn enough money to help pay his living expenses, declaring that his salary of \$12,000 a year as secretary of state was insufficient to meet his bills. Senator Brewster has asked that President Wilson make inquiry to determine what salary should be paid Mr. Bryan so that his services should be devoted to the business of the United States.

Washington, July 16.—Washington is interested chiefly in developments following Secretary Bryan's statement that he had to spend his vacation on the lecture platform, because he could not live on the secretary of state's salary of \$12,000 a year.

The lobby investigation, the tariff and the Mexican situation are forgotten, temporarily at least, while every body is talking about the resolution introduced yesterday by Senator Brewster, calling on the president "to advise the senate what would be a proper salary to enable the present secretary of state to live with comfort and to enable him to give his time to the discharge of his public duties."

When the Brewster resolution was read amid republican laughter, Democratic Leader Kern immediately objected to its consideration, and after brief debates, it went over. It was fully read, however, in the lobbies and rooms at both ends of the capitol.

Mr. Bryan's attention was given more criticism than had been paid him in regard to his lecturing, as follows:

"I do not have the criticism brought to my attention. I believe in criticism. I believe in criticism. Criticism is healthy. A man makes a mistake, criticism may correct it. If he is unjustly criticized the criticism helps him."

CAR BARN INQUIRY
UP TO COMMISSIONERSSpecial Committee at Meeting Today Will
Try to Find Out What Role
Was Followed

The special committee appointed to investigate the over expenditure of the new car barn bill had a second meeting in the board room of the city hall today. At this meeting the commissioners will be called on to give evidence as to what method they employed in connection with the authorization and carrying out of the work in connection with the erection of the new barn. Inspector Buck, who was called on to state how he arrived at the figures as submitted in his report which is used as the basis for this investigation.

USED KEROSENE TO HURRY
KITCHEN FIRE, HUSBAND
AND WIFE AT DEATH'S DOORMr. and Mrs. D. H. Forbes of Calder, Terribly Burned—At
Royal Alexandra Hospital—Both May Die.

D. H. Forbes and his wife, who lived near the Strand hotel, Calder, were burned about the head and chest, are both lying in the Royal Alexandra hospital at death's door. The story of the accident, which occurred shortly before bedtime today, is the old one of the fire that would not burn quickly enough, and the housewife's attempt to "hurry" it with coal oil.

No particulars are to be had of how the accident actually occurred. The manager of the Strand hotel, who saw the blaze that started in the Forbes kitchen, rushed in and found the man and his wife, lying half unconscious on the floor and writhing in agony.

It was he who telephoned in to Connelly and McKinley for the ambulances. It was found necessary to take Forbes and his wife into the city in separate ambulances.

The most probable explanation of the burning of the two is that Forbes, when he heard his wife's shriek of terror, saw her enveloped in flames, tried to beat them out with his bare hands, and so was himself burned. The kitchen in which the accident occurred was partly destroyed by the fire. Neighbors rushed themselves into a bucket brigade and kept the fire from spreading.

Muhall Continues His Sensational Testimony Before Senate Committee

Taft and Sherman Again Named by Him

He Gives Information About the Watson Campaign in Indiana and Says Three Millionaires Wanted Him Beaten.

Washington, July 16.—The senate lobby investigation committee, under 410 knots yesterday, over the sea of the Martin M. Muhall correspondence. Muhall was in the witness chair, and Senator Reed had charge of the investigation. Muhall identified 410 letters, telegrams and memoranda put in the record by the committee, with only a bit more hesitancy than he evinced before, although he was cautioned by Senator Reed to look closely at the clips handed him.

Muhall's attention was directed yesterday almost exclusively to the last half of the year 1907 and the first quarter of 1908. He was jumped from Maine to Missouri; from Baltimore to Indianapolis, and up to Cleveland in those few months. He told, of his late did, of his strike breaking activities in St. Louis and gave details of another visit to Maine. He mentioned again President Taft, the late vice-president, the late James Van Cleave of the National Association of Manufacturers, and other men prominently connected at one time or another with that organization.

The witness thought about \$2,000 had been raised in Indiana for the Watson campaign, and a letter read just before adjournment last night told of three millionaires in the state, one of whom was willing to send \$100,000 to defeat Watson.

Muhall told of the breaking of the strike of shoe workers in St. Louis. He swore that \$5,000 was paid over to him by F. Schwabman, secretary to Van Cleave, to pay the strike leader to end the difficulty.

This Precocious Juvenile Reverses all the Ethics of Boyhood Days

When Schools Were Closed and He Could No Longer Go, Benny Hartley Ran Away to Find New School to Go To.

Contrary to all the ethics of boyhood, Benny Hartley ran away from home because his people could not let him go to school, there being none. Benny, who is five, wanted to attend for some time, but at present, vacation being on, it has been impossible to satisfy him. He decided, however, to go out looking for a school for himself, and wandered away, three days ago, his father, George Hartley, who resides near the Howard street in the U. S. R. I. went to look for him and did not report the case to the police. He discovered him late last night, tired, hungry, and took him home. He is at present under the care of a doctor as he has suffered from cold and rain.

British Officers Should be Free to Drink Without Dictation from Hughes, Says Halifax

Colonel Sam Has no Right to Say What Kind of Liquid Refreshment they Absorb So Long as They Do Their Duty as Soldiers and Conduct Themselves as Gentlemen, Say Boys of Old Brigade.

Halifax, N.S., July 16.—Colonel Rutherford, who commands the sixth division here, has been asked by the Hon. Col. Hughes for an explanation of the bibulous tendencies of some of the officers of his command. He refuses to make any statement on the subject, but it is learned that the greatest indignation has been aroused by Colonel Hughes' recent allusion upon the officers and that several of them will return in some apology from the colonel is forthcoming. They consider that Colonel Hughes has no right to order what they shall or shall not drink and that so long as their duty is done and they conduct themselves as gentlemen he has no right to dictate to them in any shape or form.

Toronto manning officers are taking of resigning, too, and from the quarters the officers here have received messages sympathizing with their attitude and promising them action.

(Continued on Page 2.)

LOBBYIST WHO STIRS
WASHINGTON

Colonel Martin Muhall, self-confessed lobbyist of the National Association of Manufacturers, who is now in Washington testifying before the senate lobby investigating committee, before whom he was summoned as a result of his recent exposure of the inside workings of lobby operations at the national capitol.

Man Murdered; Body Hidden in Stanley Park

Corpse, With Head Cut Off, Found in Deepest Woods.

NOT ENOUGH LEFT TO IDENTIFY

Crime Committed Elsewhere and Body Carried by Two Men to Place Where Left to Rot.

Vancouver, B. C., July 16.—Some time early in May a well-known man of middle age was murdered in Stanley Park, Vancouver. His body showing unmistakable evidence of an atrocious crime was found yesterday. The fresh was badly decomposed, but there was enough of the features left intact to show that the man had been knocked out with a blow on the head with a blunt instrument, and his head was hidden in the bushes.

The body was lying in such a close thicket that it must have taken at least two men to carry him there, for the growth around the body did not look as if there had been room for any struggle there.

There was nothing in the bushes to furnish a clue of identity.

Hon. J. R. Boyle, minister of education, returned to the city last evening after a holiday spent at Whistler.

Municipalities Convention Startled
When Ald. May Introduces Resolution
to Tax Increment for Benefit of CitiesRobert Bridges
Poet LaureatePremier Asquith Names Him Successor
To Alfred Austin as Poet Laureate

London, July 16.—Dr. Robert Bridges today was appointed British poet laureate by Premier Asquith, to succeed the late Alfred Austin. Bridges, being a poet and literary man, Dr. Bridges practiced medicine for many years in the London hospitals. He is a master of arts, a bachelor of medicine and a doctor of literature of Oxford university. He is 68 years old.

Wilson Summons U. S. Ambassador From Old Mexico

Following Powers' Note Washington Takes Hasty Action.

Taken to Forefront Important Move

United States Senate Stops Shipment of Arms Across Border—Constitutionalists Blame Huerta.

Washington, July 16.—President Wilson today, after an early conference with Secretary Bryan over the latest report of the Mexican situation, presented by the inquiries of foreign powers as to the attitude of the United States toward the Huerta government, Lane Wilson at Mexico City to proceed to Washington immediately for a conference.

Ambassador Wilson will hurry north on either the battleship Michigan or the Louisiana from Vera Cruz, if any delay would be entailed by waiting for a commercial steamer. Officials here believed that the Huerta government would be able to make his trip by water. He is not expected here before July 28th, at the earliest.

It is believed in official and diplomatic circles that an important announcement of the attitude of the United States will follow the ambassador's return. The president's action following, following closely the unofficial announcement of the foreign powers which already have recognized the Huerta government were pressing for such an indication. This government's attitude toward the continued disorders in Mexico leads to that belief.

To Repeal Neutrality Law.

Washington, D.C., July 16.—Senator Fall informally notified the foreign relations committee that he intends to ask the senate to discharge it from further consideration of his bill to repeal the neutrality statute of 1912 under which the Huerta government is now importing munitions of war, while they are denied to the constitutionalists. He will ask the senate to pass it.

Huerta Blamed for Anti-American Acts.

Pago, Texas, July 16.—Versimilo Garza, commander-in-chief of the constitutional forces in Mexico, announced yesterday that he had sent the following telegram to President Huerta:

"I am informed of the anti-American manifestations inspired by you as a last resort for maintaining your power. I wish to inform you in the name of the people of Mexico, whose majority are constant victims of your policy, that your infamous conduct, which if it succeeds will bring us to a conflict with our good reason. I reserve to myself the opportunity for demanding responsibility for your new treason."

P. Burns, millionaire meat packer of Calgary, was in the city yesterday, looking over his new plant which is now in the course of erection in this city. Mr. Burns states that he expects the Edmonton plant will be completed ready for business by the first of next month, when the old Vogel plant now in use on the south side, will be eliminated. The new plant, which, with equipment, cost in the vicinity of \$1,000,000, is one of the most up-to-date packing plants in Canada. It has been so constructed as to take peak the Edmonton plant as possible, the most modern packing house machinery having been ordered for the new plant.

Mr. Burns returned to Calgary on the midnight train last night.

'AY SUCCEED ELLIS.

Ottawa, July 16.—The Free Press predicts that W. H. Thorne, a prominent New Brunswick conservative friend of Hon. Mr. Hazen and now in the west with him, will likely be a senator from New Brunswick to succeed the late Senator Ellis. The appointment may be delayed.

(Continued on Page 2.)

Whereas Cities Are Finding it Difficult to Get Money Which is Spent in Improving Property Values, He Says, Those Who Profit Should Pay.

Saskatoon, Sask., July 16.—A very radical piece of legislation came up before the municipalities convention in the resolution of Alderman G. H. May, of Edmonton, which was presented this morning. It reads:

"Whereas the development and expenditures of money on public improvements have been tremendous in all western Canadian towns and cities, and

"Whereas the possibility of procuring the money for the continuance of such public works is beginning to decrease because of a tightness of money all over the world, and

"Whereas these expenditures have been immensely enhancing the values of urban lots directly affected by such improvements, and adjacent thereto, and

"Whereas these added values have formed the reason for a great deal of undue speculation and the fostering of lines of business which fluctuate according to the chances of procuring money for public improvements, and have made it possible for land speculators to reap large profits by no effort in the direction of development of their own, but solely as the result of the communities borrowing and spending on public improvement,

"Be it therefore resolved that this convention believes the time is ripe for the application of the principle of an increment tax on the profits made on the sale of real estate in excess of the assessed value for which such realty may be taxed by the municipality in which it is located, so that the communities of the west who are making such real estate desirable and valuable by the making of improvements may reap some of the values thereby lessening the debts, which they have incurred in the progress of their public improvements."

After much discussion it was laid over until tomorrow.

ALDERMAN G. H. MAY

PROTECT CREDIT OF CANADIAN CITIES CONVENTION'S AIM

Municipalities convention hears of Plan to Uphold Debentures in the Market.

APPROVAL BY LOCAL BOARD IS SUGGESTED

Only In This Way Will British Investors Feel Safe—Mayor Short Is for Interprovincial Highways.

Saskatoon, Sask., July 16.—The feature of the municipalities convention this morning was the address delivered by ex-Mayor W. Stanford Evans, of Winnipeg, upon municipal finance. In his address, Mr. Evans advocated the establishment of a local government bond which would afford the same capacity as the local government bonds of Great Britain, so that before any issue of debentures could be made upon the world's money markets, the means of the disposal of the money must be merely because it was offered. In Canada he had seen no many instances of unjudicious municipal expenditures, but he would recommend a bond issue to his clients a personal investigation of the city concerned would have to be made.

Must Have Approval.

If Canadian municipalities were to secure money readily on the London market in the future, the municipal governments would have to take action along the lines not that when issues were made on the market they would have behind them the approval of a competent body of engineers, town planners, and other experts, as the British investor that the money he contributed to the upbuilding of the city would be wisely and judiciously expended.

Commissioner Yorath, of Saskatoon, Mayor Short of Edmonton, and Alderman Macklin of Swift Current, also took a prominent part in the discussion.

Mr. Yorath, through his intimate knowledge as engineer to the Atchafalaya county council, was asked to explain the plain many of the details that Mr. Evans was to give last night.

On most important resolutions adopted today was one which will have far-reaching effect throughout the province. It carried out. The resolution was introduced by Commissioner Neill of the city of North Battleford.

(Continued on Page 2.)

EXHIBITION MANAGER BUYS PARI MUTUELS

Ten Machines Proposed in New York Will Be Used in Edmonton Race Track Exhibition

W. J. Stark, the manager of the Expositions Exhibition, wired from New York today that he had purchased 10 new Pari Mutuels machines. These are to be used at the Edmonton Exhibition this year and will eliminate all book makers. One man is required to operate each machine and it is expected that by using them all crooked work will be eliminated. This type of machine is being used generally throughout the states and is giving entire satisfaction. Mr. Stark will visit Toronto, Winnipeg, Regina, Saskatoon and other cities before returning to Edmonton.

BURNS' PLANT READY BY FIRST OF AUGUST

MILITIA OFFICERS GET SATURATED AT TEMPERANCE MEAL

Colonel Hughes Scored Them, and Says He Won't Apologize and They May Resign.

BUT THERE IS RUMOR OF DISMISSING SOME

Strategy of Some of the Guests Enabled Them to Get Around Orders and They Scoured Beer, Whisky and Champagne.

(See Story on Page 1.)

Ottawa, July 16.—If any officer of the permanent force of militia wishes to resign because of any rumor at Halifax, they are welcome to do so, declared Colonel Sam Hughes yesterday morning, when his attendance was called to a report from Halifax that some officers contemplated resigning from the force unless the minister apologized.

"I have nothing to apologize for, I said nothing at the dinner which could offend any man at the dinner who behaved himself or any man of the permanent force or militia of Canada who conducts himself as a soldier should."

It is stated by men who were present at the dinner that the conduct of some officers of the permanent force and the militia who were guests at the dinner fully warranted Colonel Hughes in making the remarks he did.

There were 125 guests at the dinner, and only a half dozen were guilty of a breach of good taste.

Colonel Hughes gave orders to the hotel management that no liquor was to be served at the dinner and none of the private orders of any guests was to be a temperance function. In spite of this order, the strategy of some of the officers enabled them to get around the orders. Waiters were authorized to substitute champagne for beer and, at one or two tables, there was a sound of revelry by night.

When General Sir James Hamilton started to speak the interruptions are said to have been most disconcerting and their character thoroughly unsuitable. The interruptions reached such a stage that General Hamilton felt compelled to cut his remarks short and finally sat down with his speech only half delivered.

Dr. McKay, superintendent of education for Nova Scotia, who has done a great deal to promote the cadet movement, was interrupted after a time, but lung to his feet and finished his speech.

Colonel Hughes calmly told his guests that there was no place in the Canadian militia or permanent force for men who were weak or of bad character. He said further that in the matter of promotion and discipline he would make no distinction between the permanent force and the militia and that those who could not behave themselves as "gentlemen" would be better kept out while the going was good.

He also made clear his view that the permanent force was constituted for the instruction of the militia and was in no sense a standing army. He stated that Dr. McKay, through the work on the cadet movement, had done more for the militia than any number of the permanent force.

Colonel Hughes prevented further interruptions by his remarks at the dinner at the conclusion of his speech.

Some of the officers, it is understood, will be saved the trouble of resigning in resignations, as their cases are being officially dealt with.

Washington, July 16.—Democratic members of the house banking and currency committee, at a lively session yesterday, decided to hold a hearing on the bill should contain a bond refunding provision.

REVOLVERS AND ROPE USED TO DRIVE OFF JAPS

Construction Gang in Colorado Attacks Orientals Working on the Grade.

CHASE THE YELLOW MEN AWAY FROM THE TOWN

Tell Them That if They Return They Will Be Hanged—Deputies Now at Duty Protecting Those Attacked.

Steamboat Springs, Colorado, July 16.—A construction gang working on extension of the Denver and Salt Lake railroad yesterday attempted to drive from the grading camp a party of Japanese laborers, who were brought here last Tuesday. The Japanese came from Denver and had been housed in box cars at the lower end of the town.

Early yesterday morning a gang went to a Japanese camp, tore into personal officers for the purpose of gaining an entrance into the camp. As soon as the doors were opened the gang of men rushed into the cars with ropes and revolvers and ordered the Japs to drive, giving them notice they must stop work on the grade and leave this part of the country.

Then they contacted the Japanese about two miles out of the town and told them if they returned the ropes will be used to hang them.

Sheriff Chivinton arrested three of the ringleaders, and has placed deputies around the camp to prevent the members of the mob from attempting to carry out their threats.

Officers of the road have been told that the Japanese shall be allowed to work, because owing to the scarcity of white labor construction work has been delayed.

RAILROADS HAVE GRIEVANCES, TOO

Want New Dispute Board to Take Up Complaints Against Their Employees.

New York, July 16.—With the passage by congress of the bill to provide an arbitration medium for settling the differences between the eastern railroads and their 100,000 conductors, the industry has taken the first step toward the development of the industry by the railroads that the demands of employees take up also the grievances of the roads against the men.

This angle of the situation overlooks, for the moment at any rate, the long-suffering stand taken by the industry that it will not in any event submit its cause to arbitration.

SURVIVOR OF CHARGE OF LIGHT BRIGADE IS DEAD

He Expires at Balaclava Without a Scratch, But is Wounded by a Piece of Shell at Inkerman.

Utaia, July 16.—Daniel Dowling, a survivor of the charge of the light brigade at Balaclava, died in the country home in this county yesterday. He was born in Ireland in 1829 and served 20 years in the British army. He passed through the charge of the Light Brigade at Balaclava, where he was wounded after being hit by a piece of shell at Inkerman, in Crimea. He was recovered by a private from the British army and lived in this city for nearly 40 years.

Whenever he had saved any considerable sum of money he made long trips to various parts of the world, looking for an only son, who was killed and left behind while he was fighting in India.

"IN LANG, LANG DAYS O' SIMMER" ICED TEA

will prove a cool and refreshing beverage. "SALADA" comes from the hill gardens of Ceylon—fragrant, fresh and pure. Black, Mixed and Green. Sealed Packets Only.

Allow the tea to steep for five minutes and then pour it into another vessel to cool quickly. Never use refined means of cooling until ready to serve; then add sugar, ice and lemon.

LORD DERBY OKES IN HIS TESTIMONY

Giving Evidence in Turf Libel Action He Is the Cause of Laughter.

London, July 16.—The evidence of Lord Derby, fresh from Knowsley, and his entertainment of King George, was the leading feature yesterday of the turf libel action brought by R. Woodton, the trainer, against Mr. W. S. Siewer.

It is based on articles in the R. S. Siewer, published in the "Turf" and "The Field," alleging that Woodton was guilty of instructing his sons, Frank and Stanley, and apprentices under his control to "pull" likely winners and also of making bets on other horses in the show in question.

Lord Derby's testimony was given with the tone and attitude of a frank sportsman, and he was asked questions, not only by his answers to questions, but by the comments made by the judge, who he sometimes illustrated his answers.

"Have you any relation with Tattersall's?" asked the judge, who is conducting his own defense.

"I have not," replied Lord Derby. "I am an underdog," "Thank goodness," said the judge.

"Did the short-hand reporters hear anything?" asked Justice Darling laughingly.

"I never met much," said Lord Derby, "only a liver as a fence, and a horse they have backed were pulled; but never away from one. But really, I know nothing about betting or concerning the pulling of horses."

He then uttered the maxim: "Those who have lost money always say the horses they have backed were pulled." The trend of Lord Derby's evidence was to express his absolute confidence in R. Woodton as a jockey, and on this point none of Mr. Siewer's subsequent queries seemed to shake him.

The Hon. P. Stanley also gave evidence in favor of Woodton.

AUTO CAUSES DEATH OF A MAN AND BOY

Youngster is Run Over and Killed and in Getting Away Chauffeur Knocks Over Boy in the Road.

Naperville, Ont., July 16.—On Saturday an automobile ran over and killed a boy near Marlbank. It was the owner of the automobile was excited after striking the boy, and in trying to make a quick getaway, upset Mr. South's heavy 100 yards further along the road. Mr. South was 30 years old, and died Sunday.

The owner of the automobile is unknown. At Toronto the number of the machine given is a car belonging to Sir Henry Pollard, but Sir Henry said tonight at Toronto that none of his automobiles were in that district.

THOMAS W. LAWSON.

London, July 16.—The latest political scandal in the Australian parliament that the government will next year bring a bill to reform the locks, there is no doubt that the government is preparing for a fight and death fight.

It looks though the prime minister wants to bring the bill for the formation of a second chamber, and then dissolve it to the country on it.

The cabinet has apparently been formulating plans for some time.

MERCURY STILL GOES UPWARDS IN KANSAS

At Clay Center 119 Degrees is Recorded—Bulb Persons are Roasted in Leavenworth.

Kansas City, Mo., July 16.—In some parts of Kansas the mercury is up to 119 degrees, and the heat is so intense that the people are suffering. The heat is so intense that the people are suffering. The heat is so intense that the people are suffering.

At Topeka, where no rain has fallen in 43 days, 103 was recorded. At Leavenworth 102 was registered, and several persons were roasted.

In this city the government thermometer registered 102 1/2.

RYAN ONCE MORE HAS THE COUNTRY TALKING OF HIM

Says He Must Spend Vacation on Lecture Platform as Salary Is Too Small.

RESOLUTION IN SENATE ASKING WILSON TO ACT

President Requested to Recommend Recompense Sufficient to Keep the Secretary Attending to Public Business.

(Continued from page one.)

Mr. Ryan had had any share of criticism since I have been in public life, but it has not prevented my doing what I thought was right.

"Believes It Proper."

"In devoting a part of my vacation to lecturing I am doing what I believe to be right and I am not at all aware that any unbiased person will criticize me when he knows the facts."

For 17 years the source of my income has been writing and lecturing, but each year I have made more money from my lectures than from my writing, and where I have paid my own traveling expenses that I have where compensation was received. My capacity has been large and I have made not only an income sufficient for my needs, but I have been able to save an average something more than \$10,000 a year. In accepting the office which I now hold I gave up the opportunity to add to my accumulations for I do not expect to increase, during my term of office, the amount of my salary. I am willing to forego whatever advantage I might derive from my lectures, but I am not willing to forego the privilege of serving the country in this office during the coming year.

"I will do what is necessary, but I do not believe fair minded people will ask me to do more. Therefore, I will use some reason for changing my purpose. I expect to lecture enough to bring my income up to my expenses. These lectures to be delivered during the time that other officials give to their duties. I do not intend to supplement my salary. I hope my lecturers do good—people who attend them would do good. I do not intend to supplement my salary. I hope my lecturers do good—people who attend them would do good. I do not intend to supplement my salary. I hope my lecturers do good—people who attend them would do good."

Question of Salaries.

Senator Bryan's resolution set forth that from 1789 to 1799, Thomas Jefferson and Edmund Randolph held the office of Secretary of State at salaries of \$3,500 a year; from 1799 to 1819 James Madison, James Monroe, and John Quincy Adams served at \$5,000. From 1819 to 1853 Lewis Cass, Daniel Webster, Charles Sumner, John Calhoun and James Buchanan served at \$8,000. From 1853 to 1913 William L. G. Blaine, Thomas F. Bayard, Walter O. Grisham, Richard Olney, John Sherman, John Hay and Elihu Root served at \$10,000, and added:

"During this long period of time no one of these eminent statesmen seemed compelled to neglect the duties of the office because of the meagreness of the salary."

"Whereas the 'Great Commoner' now holding that high office, Hon. W. B. Bryan, has used in the public mind that the salary of \$10,000 per annum is not sufficient to enable him to live with comfort and because of the meagreness of the salary of \$12,000 per annum, he is compelled to neglect the duties of his office and so upon the lecture platform in order to earn a living."

"Whereas there are now pending before the department of state matters of the highest importance to the nation and the relations of the United States with Mexico, Japan, England and other foreign countries, that demand the most earnest and continuous attention of the secretary of state."

Up To the President.

"Therefore, be it resolved that the president be requested, if not imposable with the public interest, to advise the senate what would be a proper salary, to enable the present secretary of state to live with comfort and to enable him to give his time to the discharge of his public duties, for which he is now being paid the sum of \$10,000 per annum, and be it further,

"Resolved, that the president be requested to report to the senate what would be a proper salary, to enable the present secretary of state to live with comfort and to enable him to give his time to the discharge of his public duties, for which he is now being paid the sum of \$10,000 per annum, and be it further,

Senator Shafroth of Colorado, declared Secretary Bryan had assured him he did not desire an increase of salary.

Secretary Bryan's home in Washington is an old residence of John A. Logan, for which he pays \$4,000 a year. Former Secretary Knox, who rented a house in Washington, had a fashionable street, paid \$7,000 a year, though during his term of office he received but a salary of \$8,000 a year.

AMERICAN DAY A SUCCESS.

Winning, July 16.—American day at the Winnipeg International Exhibition was a triumphal success. Perfect weather prevailed all through the day and the event was remarkable for its mildness. A grand total of 35,000 people entered the grounds, and by 3:30 p. m. the two days' work remained to be judged in the horses, bull championships.

A STRAIGHT TALK TO THE Savings Bank Investor

Movement in the Real Estate world is quiet now and these conditions call for special selling systems which were not necessary when things were booming.

The result is that the small investor has to be contented with the Savings Bank or else wait years for a profit on his cheap buy. While Western Canada Real Estate is all good buying and profit is sure, this long delay reduces the actual profit because of the loss of interest in the interval.

Our proposition fits the person with the \$10 or \$20 bill equally with the \$100 bill and the proportion of profit is the same for all.

Co-operative BUYING and co-operative SELLING is our motto, and this spells big things for you if you have the eye to see the possibilities of the system.

One of our clients, in safeguarding his interests, consulted his lawyer in our presence and the result was he invested over \$1000 in the proposition and today he is one of the greatest boosters of our system.

When things are moving along briskly and sales are easy, any old style of selling is good enough to get results, but when the lean time comes the Salesman of experience is left alone in the field and he generally makes good, because he doesn't expect any results without putting some effort into his work.

Our system has been submitted to a few local experienced business men and they all endorse our opinion that it cannot fail to make good.

Your \$10 bill invested in this proposition will bring you two, three and even four times the amount back in profit in the course of the next few months and your liability is strictly limited to the amount of your investment.

Get busy with that letter and get in touch with us at once and then it's up to you to size up our proposals for yourself and we are satisfied you will admit the goods are there all right.

Neglect to avail yourself of this opportunity places you in the same position as a man who failed to grasp his chance of buying future producing locations seven years ago for what amount and now has nothing but regrets for his lack of foresight and belief in the opportunities of the West.

Our business reputation will bear the strictest investigation and our record of success in the last six months will show you that notwithstanding the tightness of money we can sell.

In conclusion, remember, it's the \$10 bill we are after just as much as the larger amounts. Don't let the chance over your head. We have a good thing to offer and the more people we can interest the better we shall be pleased because it means greater business connections for us in the long run.

The soundness of our proposition has already been endorsed by a number of shrewd local business men to the extent of over \$50,000.

GERMANS CORNER BRITISH RADIIUM MAKES A RECORD IN FLYING BOAT.

Beckwith Havens Reaches Point Lookout After Making 250 Miles in a Day.

Bay City, Mich., July 16.—Beckwith Havens, the only flyer in the Chicago-Beckwith hydroplane plant, landed last night at Point Lookout, 250 miles north of this city on Saturday Bay, completing a flight of nearly 250 miles in 24 hours, and establishing a new record for a single day's flight in a hydroplane.

Havens is accompanied by Verplack, of Chicago, owner of the craft.

FOREMAN BADLY BURNED. Cobalt, Ont., July 14.—As the result of a fire in the smelting room of Campbell and Derris, a foreman, the building and apparatus is almost a total loss yesterday, and Foreman Charles Morris, who was alone in the room where the outbreak occurred, now lies in the hospital badly burned.

Allegany County in Pennsylvania Appropriates \$150,000 for the State of the State.

Pittsburg, Pa., July 16.—Commissioners of Allegany County yesterday appropriated \$150,000 for the payment of pensions to mothers who have children dependent upon them. Before the money is available Governor Penn under the law enacted by the last legislature must name a board of trustees, by whose direction the money, together with Allegany County's proportion of the \$100,000 appropriated by the state, will be expended.

Only the mothers of children dependent because of the death of their fathers are eligible to receive the money. Mothers must be qualified in the agreement of the trustees to administer the pension and care for their children.

It was stated at the commissioners' office that of the dozens who have inquired about the operation of the law, only a small proportion can avail themselves of its provisions.

Asthma. The terrible struggle to breathe, the choking from irritated throat, mucus, cold, wheezing and permanent breath.

Dr. J. D. Kellogg's Asthma Remedy.

DODD'S KIDNEY PILLS

23 THE PR

Alderman East stated that he had had experience with explosives for 20 years, and he did not believe that the contractors should be prohibited in any way, shape or form.

Al-
tiresly from using them, as it was quite
possible to use the explosives in such
a way as to eliminate all danger.
Alderman Driscoll's view of the
matter was that it should be referred
to the commissioners for a report,
since the council only had one man's
view of the trouble.

all that if the property owners of King street, Delton, were willing to pay cash it would be possible for them to have this street opened up. "This is another case where the commissioners are late in looking after the wishes of the ratepayers," said Alderman Livingston, who then moved that the public works committee take the matter up at their next meeting. The motion was carried.

The city auditor reported, last week, that the city had drafted four leases for sites furnished by the city and the industrial estate. The city and the industrial estate had agreed that an expenditure of \$250 would be necessary to put the public lavatories on the market square into proper sanitary condition. The report also recommended that the market square be erected close to this spot be removed to the other side of the market square. On motion of Alderman Walsh, seconded by Alderman Calder the market square was referred to the market committee with power to act.

Alderman East requested that the commissioners bring in separate reports from each member of the special power committee as to whether he was responsible for the giving out of the misstatements contained in the Bulletin of Saturday, July 12th, and Monday, July 14th, in matters pertaining to the power house.

The commissioners reported to council that if the property owners of Kings street, Don, were willing to pay cash for the street opened up for them, it would be opened up. "This is another case where the commissioners are late in looking after the wishes of the rate payers," said Alderman Livingston who then moved that the public work committee take the matter up at their next meeting. The motion was carried.

OF A LOBBYIST WHO CONFESSED

The amazing revelations of Martin M. Mulhall, now being made before the senate investigation committee in Washington constitute the most astonishing exposure of "the system's" pernicious activity in national politics in United States that have yet come to light, and corroborate and confirm in detail and in fact the most extreme accusations of the muck-rakers who have been filling the newspapers and magazines from day to day since Lawson some seven years ago commenced his attack through Everybody's Magazine.

Mulhall is a lobbyist who has confessed. The incidents which brought him into the limelight have been dramatic and remarkable. Some two months ago President Wilson declared that there was an insidious and insistent lobby working against the tariff revision, and that unless the lobbyists desisted there would be trouble for some one. At that time, in all probability, the president knew little or nothing about the personnel of the lobby, or of who among the members of the house of his party and the other, were in tow with the system. Nevertheless, he made his declaration so definitely and so emphatically that it is quite probable that the lobbyists felt some apprehensiveness, not to say nervousness, as to the possibilities of the situation. Just at this time, David Lamar, formerly a ticket agent in Omaha, popularly known as "the Wolf of Wall Street," made the declaration that he had written the resolution presented by Cummings, of Kentucky, calling for an investigation of the steel trust, a probe which it was proposed to insert under Democratic auspices in the evident hope of connecting Roosevelt up with the notorious Tennessee Coal and Iron deal, which is said to have had Roosevelt's quiescent support. Cummings made the mistake of publishing a denial of Lamar's claim that he (Lamar) wrote the inquisition resolution, a declaration which, in the agitated state of the public and political mind, did not pass unnoticed. Lamar was called before an investigation committee in Washington, and the rat was in the fire. In his statement before the Washington committee, Lamar mentioned Edward Lauterbach, a lawyer who had served the steel trust in a confidential capacity, and had afterward been dispensed with. In his testimony "the wolf," who evidently had no hesitation about telling all he knew, related how he had impersonated congressman, senators and politicians over the telephone, advising steel trust magnates to restore Lauterbach to his former position as confidential agent lobbyist and attorney for "the system." This brought Lauterbach before the investigation, who, in turn, implicated Mulhall by mentioning him as the head of the lobby.

Mulhall made a clean breast of the whole business, declaring, in effect, that he was tired of the system and its methods, and that he proposed to tell the truth. In his denunciation, which has been occupying the attention and furnishing the sensations for the Eastern States for days, Mulhall is producing absolute proof of how the system has for years maintained a secret bureau for the purpose of bribing labor leaders, influencing politicians and office seekers, corrupting electors, defeating those who opposed the trust point of view and electing those in favor, as the case might be, and generally, in any manner possible, without regard to justice, law or honesty, gaining the ends of the protected manufacturers and the system. Mulhall relates how he got so close to the fountain head of the law-making power in United States that he had a private office on the main floor of the Capitol building, where he held secret sessions with those in congress and senate who were playing the game along with him, and it is even related and proven by letters, the authenticity of which is beyond doubt, that he and his friends managed to influence the then president, "Taft," to make a complete right-about by declaring in favor of a tariff commission which would take the power to reduce the tariff—to which Taft had pledged himself—out of the hands of the congress altogether.

One of the remarkable things about the Mulhall revelations is the unanimity with which it corroborates the judgment of the muck-rakers. Among the scores of public men named, practically not one has escaped, at some time or other, the grilling of the muck-raking magazines and newspapers. Ex-Speaker Cannon, who in his later days of power was the most abused of all the stand-patters, appears, in the light of the Mulhall revelations, as a regular front-rank man in the system's phalanx. The evidence goes to show that although he held what is usually considered the most powerful and autocratic office in the gift of a free people Cannon was working, not for the people of United States, by whom he was elected, but against them in the interests of the system, and that he was a party to the whole saturnalia of iniquity. Practically all the old-line stand-patters are revealed in Mulhall's testimony as servitors of the system, and many labor leaders holding offices of national consequence have been shown to have sold out in the most wretched and brutal manner imaginable. On the whole, however, the labor leaders come out of the great unmasking much better than the old line politicians. Gompers and Mitchell, for instance, are shown to have been on the system's black-list, which meant that they were immune to all efforts to purchase them with money or corrupt them with power. These two men, the presidents of labor, when first put to the test seem to have been of much better fibre than the president of United States, and quite evidently have been much safer men in the presidential chair than the man whom the public were hoodwinked into electing in the belief that he represented them.

On the whole the Mulhall revelations are a shattering blow to the superstition which has prevailed in United States so long that in their alleged republic the people govern. After what has been shown with relation to its congress, its senate and its politics, one has only to draw upon the imagination of what must have been happening at the same time with regard to its supreme court to realize that, so far as having any force to govern themselves was concerned, the people of United States have had very little the better of the people of Russia.

THE CAR BARN ARGUMENT
FOR COMMISSION GOVERNMENT.

The car barn job comes along with its quota of evidence to corroborate the impossibility of the present system of municipal administration.

According to the secretary of the commission board there never was a resolution of the board placing the job in anybody's hands in particular. It was just in the hands of the commissioners. Mr. Carson was supposed to be looking after it and, so far as possible with the diffusion of authority under the charter, he most likely gave it what attention he could. But the superintendent of construction admits that he got orders from three sources, the stores and works department, the architect and the commissioners. Who these three got orders from is not plain, but quite evidently each was working independently and without responsibility to any one head, trying, as best they could, to get a car barn built. In the finish there seems to be considerable uncertainty whether the building cost a hundred thousand, or a hundred and forty, and just how to discover what it did cost no one seems to know. One thing, however, is perfectly plain, that the street railway department, which in the finish has to pay the cost, had nothing to say about the plans or the expense, or even about the time when the job should be finished, or anything to do with the car barns who never.

Considering how easy it would have been, under commission government, to hand the responsibility for building the car barns over to a properly-constituted construction department, and to hold that department responsible, the chaotic con-

ditions surrounding the car barn job furnish the first kind of an argument in favor of commission government.

WHO SAID
STRINGENCY?

The Montreal Gazette, which is some authority, says that not less than \$300,000 came into Canada in the last few months in the form of municipal securities, through the sale of municipal securities, through the sale of grain and through immigration, and that the talk of continued stringency, the Canadian situation must have been relieved to that extent since such plain began to be felt. The \$300,000,000, much, however, does not include sales of Canadian securities other than those by municipalities. The Canadian Pacific Railway, through its new stock issue, is bringing in close to \$100,000,000 of outside money and despite a tight money market blocks of railway and industrial securities have been disposed of abroad in the first half of the year. Bankers estimate that close to \$150,000,000 have been realized in the sale of municipal securities alone. It is further estimated that one of grain held at the head of the Great Lakes through the winter has loosened up funds for the Canadian banks to the extent of \$100,000,000. The tide of immigration has been flowing strongly and it is held to be a conservative estimate that the incoming settlers have brought with them at least \$50,000,000.

In the face of this showing it looks as though the stringency was more a matter of its security than of the amount.

NEW POET LAUREATE

Dr. Robert Bridges, designated by Premier Asquith as English Poet Laureate to succeed the late Alfred Austin.

TODAY IN
DOMINION HISTORY

Pierre de Moyné, Sieur d'Iberville, the famous Canadian explorer, was born in Montreal 322 years ago today, July 16, 1651. He was one of a number of brothers (some historians say seven, others eleven) who flourished in some degree in French colonial history. The Canadian branch of his family was founded by Charles de Moyné, de Moine, who came from Normandy and became seigneur of L'Assommoir, near Montreal, and of Châteauguay, and commander of Montreal. He waged war against the Iroquois, and died in 1692. He had three sons, but only seven of them were in history, which is probably responsible for the discrepancy between the number of children. The Frenchman, who served in three expeditions against the English, in 1686 ravaged Iroquois and destroyed Fort Pentagoet. He twice sailed into Hudson Bay. He then, with his brother, died in the transfer of the scene of action to the Gulf of Mexico, founding colonies in Louisiana and Alabama. Charles de Moyné, in 1706, after his brother, Antoine, served in the war and afterward became governor of Montreal. Charles de Moyné, third son, and three times, built Fort Niagara, and repulsed the English in 1741. He was killed in 1741. Jacques accompanied his brother, Pierre, in his expedition of Hudson Bay, and defeated the Iroquois. He was killed in 1692, at that time, when he was killed in that engagement. He also explored Hudson Bay, and afterward became an admiral of the fleet. Paul made peace with the Iroquois in 1701, and became a seigneur of the land, but was later put to death by a redskin upon his refusal to fight between them and the government. Descendants of his remarkable family have long been prominent in Canadian public life. James Pearson, Lord Minto, born at Quebec in 1825, was knighted in 1891, in recognition of his literary work, and an original researcher. He wrote "Montreal," "The Last of the Mohicans," "The Last of the Mohicans," and "The Last of the Mohicans," and made valuable contributions to Canadian literature and science.

READ BOOK TODAY

ANNIVERSARY OF "MORTAL"
BIRTH OF MARY BAKER EDDY

Though to some extent divided on questions of leadership, Christian Science is in thorough accord in celebrating today, in spirit, the 29th anniversary of the "mortal" birth of its spiritual mother, Mary Baker Eddy. In the opinion of her followers, Mrs. Eddy is as much alive as ever, and that many disciples of Christian Science firmly believe she will soon reappear on earth.

Dr. Augustus E. Steadman, of New York, who has proclaimed himself the successor of Mrs. Eddy and is, leading spirit to the spiritual control of the sect, is one of the prophets who predict the "second coming" of the founder of Christian Science.

"I believe that what was possible to man, his reappearance to the world after seeming death, can be possible to woman," is the remarkable statement attributed to Mrs. Steadman. Mrs. Eddy's individual identity is an emanation of the principle of being, and her causation is creative thought force. She has always existed and she will continue to exist forever as an ideal of God. When I state that Mrs. Eddy never died I refer to her divine selfhood. The human, material personality has disappeared from our material view. For a time these so-called appearances, but the divine nature of the human thought which embodied itself in flesh, and through the power of the Christ consciousness manifested himself. Would you deny of woman who has learned Jesus' method of living, the same thought which caused disease and death, the spiritual ability to prove her finality as Jesus proved by manifesting himself to the world?"

"THOU SHALT NOT SQUEAL"

In the final rules of the latest side of Manitoba listed the "village gamblers, gamblers and crooks of the American metropolis will gather tonight for a little education. Sore Back, No Fun,
Cure It To-Day,
Rub on "Nervine!"

It Will Cure Your Aching Back,
Stop Your Suffering, Keep
You Well.

Back Sufferers, Read Below.

"I am just so delighted with the comfort Nervine brought me that I want to talk about it all the time," writes J. J. Campbell, of South Carolina. "For ages I have been subject to a 'aching, dragging feeling at the base of the spine.' When attacks came on it made my whole body ache. It appeared as if I had taken cold and a soreness developed all through my muscular system. When in Winnipeg I was a friend spoke to me of Nervine, and I bought a 50c bottle. That was the best half-dollar I ever spent, it did so much for me. It is hard to convince some people of what a really sweet medicine can do, but there will be no sceptics after they try out Nervine. I used it for everything, even the fine rheumatism and Neuralgia and all sorts of muscular pain it cures quickly. But internally, if possible, Nervine is even better. It cures a cramp in ten seconds, and, as for gas and upset or sour stomach, nothing could excel Nervine. I think it should be kept in every home as a protection against sudden ills, and also to cure ills that resist other 'remedies.'"

Paris, 1896 bottles, 50c; trial size, 25c; at all druggists and druggists, or the Catarthozone Co., Buffalo, N.Y., U.S.A.

zens of Gotham's underworld, for it was just a year ago today that Herman Rosenthal was "blumped off." Rosenthal was a gambler who, by the way, was the district attorney with his troubles had violated the first commandment of the underworld—"Thou shalt not squeal." He was threatening further exposures when he was assassinated by the streets of New York by men who escaped in an automobile, sensationally referred to as a "murder car." In the year that has passed since that fatal day, the underworld has not been so quiet. Charles Becker, who was convicted of instigating the crime, is now in prison under sentence of death. In appeal from the verdict will be argued next December. Four gunmen with novel names will not attend tonight's festivities, for they are also behind the scenes awaiting the brief trip to the electric chair, if their appeal also is to be denied next Autumn, fails in its purpose. Four other former distinguished criminals of the underworld will also remain away from the circles in which they once moved. For they, too, by playing the infamous game of chance, broke the unwritten law, "Thou shalt not squeal." Nine will scarcely be missed, however, among so many sinners equalled in the ferocity of crime, and the "squeaking" of Rosenthal still doubtless be fittingly celebrated.

THE HUMAN PROCESSION

"Europe's most fatal malady, is, by common consent, Vice," writes Francis Knollys, first Baron of Caversham, who today passes his seventy-third milestone. For over 40 years he was private secretary to the British royalty, the French and consular of three monarchs, and his recent retirement was considered in court circles to be little less than a calamity. It has been said that the Prince of Wales, who knew him full "no other man ever knew so much or said so little." The tribute was given by Lord Knollys, who said: "It was in human spirit. Shrewd, insistent, unflinching and courteous, and the rare ability to hold his tongue, enabled him to win and hold the esteem and respect of not only those he directly served, but of cabinet ministers, diplomats and the people at large. Only the reporters disliked him, for never a word were they able to get out of him. It was in 1868 that Francis Knollys, then merely a 'Mr.," entered the service of royalty as a gentleman usher to Queen Victoria. Two years later he was appointed private secretary to the Prince of Wales. When Edward, and continued in that capacity until Edward's death. He succeeded to the same post under King George V. His name is pronounced to rhyme with 'poise' or 'coals'."

Capt. Roald Amundsen, the Norwegian who put the South Pole on the map, was born in Sarpsburg, Norway, 47 years ago today. His youth was spent in Christianity, and on board sealers and whalers commanded by his father, Captain Arne Amundsen. It was 25 when he entered on his first South Polar trip as first officer of the Belgica expedition. This journey lasted two years, and filled the young sailor with aspirations for further exploration in the frozen regions. His adventures would him to become a physician. He spent a year in a medical college. Later he went to Germany, to study sciences that would aid him in his travels. His final ambition was to take a ship through the Northwest Passage, and on this voyage he twice wintered in the ice.

Dr. Morse's
Indian Root Pills

are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when their bowels give them trouble—Dr. Morse's Indian Root Pills will quickly and surely give them relief. Purely vegetable, they neither sicken, nor grip, nor cause purgative. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They keep the children well!

SAYS THE THEATRE IS KALEIDOSCOPIC

Actor - playwright - composer
Gives His View of Situation
On Stage Today.

"The theatre of today seems almost kaleidoscopic," declares Mr. Edwards Davis, the well-known actor-playwright-composer, who is the headline feature of the Orpheum vaudeville bill at the Empire theatre the first half of this week. "No sooner do we have one form than another takes its place; we are in a nervous, restless state. And I am convinced that, to a certain extent, this is due to the presence of so many upon the stage who are simply learning their trade. Acting is an art, a very great, a very difficult art, and, in the face of many apparent instances to the contrary, it is an art that needs many years of study and training. Ask a pianist how many years he has given before acquiring skill and confidence enough to go upon the platform, or a painter before his picture is accepted by a critical committee? It is not, however, an extraordinary that so much immature talent should be offered as that people should be found willing to pay \$2 for the privilege of seeing a young lady—pretty, of course—in the process of learning her profession. To be really natural on the stage one must be an accomplished artist. Watch an actor of power, of reserve force, play a modern play. His art denotes you into the idea that he is natural; but, in reality, he is practicing the most delicate instrument of his art."

PEER SETTLES BREACH OF PROMISE SUIT

Marquess of Northampton
Marquess of Northampton, formerly the Earl of Conyngham, who has settled upon Daisy Markham, a London actress, the handsome sum of \$250,000 in lieu of her agreement to withdraw her suit for breach of promise, instituted in the King's Bench Division Court. When the Earl's Attorney announced that he wished to bring the suit to a close, a letter, one of the last received by the actress from the young nobleman, was read before the court. In it the Earl proclaimed himself as heartbroken because he could not marry Daisy, whom he said he loved, calling her his ideal of what a woman should be. He said that he had promised his dying father that he would never marry the actress. Further on in the letter the Earl declared that it was better for the actress to be married, because her life would never come to be one of torture; she would not be received by the "so-called ladies" of his social circle and such treatment would cause her to suffer continual misery. The Earl signed this letter "Your broken-hearted."

A Simple Treatment that Will Make Hair Grow Now Sold in Canada

Every up-to-date woman should have radiant hair.
There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.
In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic.
Every reader of The Daily Capital can have an attractive head of hair in a few weeks by using SALVIA.
Kerry's hair grows so fast that a large bottle for 50 cents, and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.
SALVIA is a beautiful, pleasant, non-sticky Hair Tonic. Get it at Lines' Drug Store and the Playday Drug Co.

"HANKY PANKY" IS HERE TOMORROW

Merry Musical Entertainment
Already Has Made Several
Fine Records.

A conspicuous and most interesting engagement will be that of Lew Fields' all star "Hanky Panky," which comes to the Empire theatre for three nights and Saturday matinee, commencing tomorrow night, and presenting "Hanky Panky" exactly as given for 150 nights at the Broadway theatre, New York, where it repeated its former success of 200 nights in Chicago and 150 nights in Boston.
This merry musical entertainment enjoyed a record in New York city seldom, if ever, equaled by any production of its character, as is evidenced by the fact that in 10 weeks it played to practically capacity business.
Edgar Smith, E. Ray Gould and A. Baldwin Stone wrote the book, lyrics and music; the same wonderfully successful trio who wrote "The Midnight Sons," "Little's Nightmare," "The Never Home," etc.
"Hanky Panky" is a riot of color, tunefulness and scenic effects, and besides the famous principals there are 30 girls who have become known to Broadway as "sacred beauties."
The production is made on a most lavish scale, and there are 19 musical numbers interspersed by singers of established reputation.
Among the principals are Max Rogers, the surviving member of the Rogers brothers; Harry Cooper, the famous comedian actor of the "Empire City Quartette," and recent co-star with Mlle. Trenlin, in "Naughty Marietta," Hugh Cameron, the London favorite; Clay Smith, musical comedy's "Beau Brummel," Arthur Carleton, Christine Nielsen, the golden voiced prima donna; Myrtle Gilbert, vaudeville's "soubrette," and sensational dancer; Virginia Evans, Flo May, and William Montgomery and Florence Moore, the highest priced comedy act in vaudeville.
None of these need an introduction to the play-going public, as several of them have starred at the head of their own creation, while others have been headliners in vaudeville.
Among the songs hit in "Hanky Panky" he mentioned, "Where the Red-velvet is Blooming," "Ruse of Prudent Land," "The Lyre Bird and Jay," "The Million Dollar Ball," "Dixie Love," and "On the Mississippi."

Settle the Problem Existing in the
United States.

New York, N.Y., July 16.—American missionaries in Japan affiliated with the American Board of Christian missions have forwarded to this country through the federal council of the churches of Christ in America, a resolution recently adopted, asking the council to appoint a commission looking to amicable settlement of the Japanese problem in this country.
The resolution made public today points out that the spread of Christianity in Japan depends closely on the maintenance of friendly relations with the United States.

KENNEDYS PLAY TO PAYING BUSINESS

Big Crowd Taking In the Car-
nival Under Canvas on
Second Street.

In spite of the fact that weather conditions have not been too favorable since the Con. T. Kennedy shows reached the city on Saturday last, the crowds attending the carnival at the foot of Second street have grown to magnitude every day, and the management state that they are doing even better business than they anticipated.
Apart from the fact that the carnival is held under the auspices of the Baseball club, which takes a percentage of the gross earnings, the Kennedy aggregation has much to recommend it on its own merits, for an infinite variety of amusement has been gathered together on the one lot.
The main show, where trained animal performances with lions, tigers, bears, and ponies is given, and a parade with the face generally associated with a first-class circus.
In addition there are a number of vaudeville and musical shows, in which good programs are offered. Prominent among the variety shows the La Zoria tent, where some really clever dancing, including the Texas Tommy and other much-talked-of dances are given. A remarkable piece of stagecraft is employed in the drama, "Beauty and the Beast." A Turkish pasha has one of his female slaves thrown into the cage in which a real lioness is kept. As the girl is precipitated into the den, there is a flash of lightning, the lion disappears through a trap door, and in place of the ferocious brute, the girl's French lover appears in the cage, throwing off his pasha's hide in which he is enveloped.
Lovers of curious human beings have their tastes well catered to by the numerous "crazies" who form part of the show. There are Siamese twins, a little Indian, a turtle boy, a man who sits at his ease in a large tank of water and smokes cigars below the surface, a living skeleton, who is said to have been brought to his unhappy predicament by over-indulgence in the festive pleasures, an amazing individual who is neither man or woman, but partakes of the characteristics of both, and a host of other strange people.
One of the most sensational features of the carnival is the performance of Wild Billy Rose, champion motorcicle rider of the world. In a tiny motorcicle, Rose flies round and round the circular sites at top speed. At times his machine almost to the top of the motorcicle, the walls of which are placed at an angle of 77 degrees, and the spectators draw back in apprehension. Then again, he is almost on level ground once more, only to run back up the sloping sides in a moment afterwards. Rose completed his hair-raising performance by racing round the motorcicle with his fastest machine, both being mounted on high powered Indian motor cycles.
Kennedy's shows are also well supplied with the usual adjuncts to a carnival, ferris wheels, merry-go-rounds, loop-the-loops and the like.

CROWN PRINCE IS A MUSICIAN

King Victor Emmanuel's Son
and Heir, Nine Years Old,
Plays Piano.

Rome, Italy, July 17.—Crown Prince Humbert, who will be 10 years old in September, has developed a marked talent for music and plays the piano exceptionally well. He is the only son of King Victor Emmanuel and is named after his grandfather, King Humbert. His particular title is Prince of Piedmont, and he is a cavalier of the Order of the Annunciation.
PA'S SANE PLANS.
He called his children round him and he said: "Now girls and boys, We'll observe the birth of freedom Of the birthday of our flag. With both dynamite and powder, For they're harmful, we'll dispense, And with patriotic singing In the morning we'll commence. Then I'll read to you the story Of the history of our flag. And I'll tell of stirring battles That the moments will not drag. We'll have the same same amusements That a mortal can desire, But we'll not have cannon crackers And we will not play with fire. And at nine we'll go to bed. 'Tis duty that Pa's going nifty. Was all naughty Willie said."

CROWDS AT BRANDON.

Brandon, Man., July 16.—Great crowds visited the Dominion exposition last night, when an unparalleled series of attractions were presented by the Dominion committee. Three-derd Blakeley, the California aviator, gave a splendid exhibition of fancy flying on his Curtiss biplane, the fastest machine on the Pacific coast. The intrepid aviator showed complete mastery over his biplane, flying over the grand stand, skirting around the race track, performing and tumbling in masterly fashion.

JULY CLEARANCE SALE

Record Breaking Sale of Coats and Suits for Women

Thursday and the balance of the week will be one continuous flurry in the Coat and Suit department. Stocks have been upside down the past few days selecting and marking the remaining stock that we have on hand.

Clearance Sale, each, **\$23.50**

Women's & Misses' Coats—Former prices
\$10 to \$15. July
Clearance Sale, each ... **\$6.50**

RAMSEY'S NEW E COTON WERE OPENED TODAY

Emery Company Will Supply Ladies' Waists, Dresses and Skirts.

FINE PREMISES ARE AT GRIEBBACH AND NAMAYO

When in Full Operation, the Concern Will Employ About Eighty Girls—Whole Plant Moved from Guelph.

The number of factories in Edmonton has increased today when the Emery Manufacturing company, whose plant has been transferred bodily from Guelph, Ont., located in its new premises, corner of Griebach and Namayo.

The Emery company, a partner in the firm of Emery, general manager and the former firm, having been a partner in the Guelph concern, before moving to Edmonton, Mr. Emery still retains his interest in the Emery company, and as such, a large portion of the Emery output was being shipped to Edmonton. It was decided to transfer the factory here.

The firm erected a large two-story brick building 45 feet by 117, and installed all the latest machinery for the manufacturing of ladies' wearing apparel. There are 49 sewing machines, for which the Emery company supplied by a dynamo. In addition, the firm has electrical cutting machines, patent button hole making apparatus, and an ingenious machine which sews on buttons and hooks.

When in full operation, the Emery company will employ from 70 to 80 girls. At the present time nine girls are at work, but the manager, H. E. Emery, brother of A. E. Emery, stated that as many suitable girls as applied would be employed. Mr. Emery has brought with him from Guelph, a foreman, machinist and forewoman, and expects that other former employees from the east will join him in the immediate future.

It is only four weeks ago since the factory in Guelph closed down. In the interval, the whole plant has been removed from the Guelph premises, packed, brought west, installed in the Edmonton factory, and is now in full working order.

WHOLESALE DRAPER TO ESTABLISH BRANCH HERE.

The interest with which Edmonton is regarded by English capitalists was again proved today when a party from the city of Bradford, England, of the firm of Johnson and Simkins, wholesale drapers and clothiers in London, who is looking over the city with the view of establishing a large distributing warehouse here.

Mr. Johnson arrived from Calgary today, and stated that he had found conditions all over the west better than they were pointed by recent pessimists.

Mr. Johnson has been examining available property for a large wholesale, warehouse and stated that he would probably acquire the necessary stock and before leaving the city.

DEATH FOLLOWS WEDDING FIGHT

Man Is Beaten So Badly With Club That He Dies Several Hours Later.

Fort William, Ont., July 16.—During celebrations which followed the two weddings last night, Mike Wytrzbak, about 30 years of age, was beaten so badly that he died a few hours later.

John Bezdak, also a Galleian, had been elected from one of the dances. Later Bezdak returned, called another man outside and started to beat him. It is said that one Kozak grasped Wytrzbak, whereupon Bezdak struck the latter several times on the head with a club. The man died, not regaining consciousness.

A charge of wilful murder has been placed against Bezdak, now under arrest.

NEAT LITTLE ACTS IN PANTAGES SHOW

Musical, Lullaby Act Drawing Crowds. Novelty Bicycles Act Gaining Work—Acrobatic Clever.

The bill at the Pantages which took so full of entertainment, that the audiences are more pleased than with any other performances. There are several neat little acts, and the musical lullabies have proven perfect winners on the musical program, when they play. All of the quintets can play most any kind of a band instrument without a few strings.

The novelty bicycle act provided by the Rondas Trio is another clever piece of work. Two young men, and a woman keep the audience thrilled with their work and perform very difficult feats on the wheels. The Rondas Trio have a sensational acrobatic act, "Tiffed" is a clever ventriloquist, and Barker and Adams are clever in their singing and talking act.

ONE GALLON SASKATCHEWAN EYE BALANCE EYE BALANCE

And the Diver Could Not Cauter the Joints to Stoop the Leak.

NOW SOUTH SIDE IS WITHOUT WATER

While Twenty Thousand Dollars' Worth of Lovely Pipe Reposes in Cool Depths of Rushing Saskatchewan.

The pipe line which was recently laid across the Saskatchewan river, destined to supply the south side with water, and which cost the municipality approximately \$20,000, is of no practical benefit, is the story which is now current in civic circles. When the pipe was turned on, it leaked so much that the water was lost before it reached the joints in the pipes were not properly caulked, and as a result, out of every five gallons pumped back into the river. A diver was then employed to caulk the pipes, but that gentleman, after repeated trials at the bottom of the river, found that the caulkings of joints, where they could not be reached, were of no use.

Just what will be done to guarantee the south side an adequate water supply and avoid similar accidents or other contingencies, has not yet been decided. The feasibility of tunnelling under the river and laying a large main pipe, which would be under consideration, and will probably be adopted. No figures as to what this project will cost have been provided. Meanwhile the water main, with its uncaulked joints, which cost the city \$20,000 to install, is now resting peacefully in the Saskatchewan and will probably never be used.

It was only last tested out, and it was ascertained that the leakage was at least 20 per cent, it was proposed that the waterworks superintendent, who stated that if he were forced to take it over he would place his meter on the south bank and pay only for the water delivered to the north side.

The report indicates that a new record has been established for the coal consumption of the north side steam plant. The cost per K.W.H. for this plant was only 0.84 cents as compared with 0.89 cents for the previous month. The average for the whole of last year was 1.42 cents per K.W.H.

This is a particularly good result for June, when the comparatively small output at this season of the year is considered, and is the lowest figure yet attained.

During the month the south side plant was operated under extremely adverse conditions, and at the same time the period of destruction of the coal in the north side of the river. In spite of these drawbacks the plant has made a better showing than last month, although the output was less.

A comparison of the output with the previous month is given below:

June 18, May 18, K.W.H. K.W.H.

Power to electric light Dept., \$55,970.64 610.01

Power to street lighting, 1,075,540.68 696.06

Water to water works Dept. 131,935.62 131,650.25

George P. Smith, M.P.P., for "Canada" is registered at the Corona hotel.

C. E. Taylor, formerly superintendent of the street railway department and now in charge of the Crafts and Fire units at Toronto, is in the city on business.

Dr. and Mrs. Sommerfeld of Toronto, who are making a tour of the west, are spending today in the city.

H. Milton Martin and Irene Leunhardt, who have been touring the west, are expected to return to the city on Saturday. During their trip they visited Vancouver, St. George, and as far north as Fort Vernon.

BUSINESS OUTLOOK IN CANADA IS GOOD SAYS CHAMBERLIN

President of Grand Trunk Pacific Says They Need No Money

LAST YEAR BIGGEST IN RAILWAY HISTORY

Rails Will Be Laid to Coast Within a Year—No Hitch in Plans to Take Over Transcontinental From Dominion.

New York, N. Y., July 16.—B. J. Chamberlin, president of the Grand Trunk Pacific, stated today that the business outlook in Canada is good despite the tightness of money. He says: "Money is tight, but we cannot secure funds from the banks under any conditions. But that does not worry our company now, as we do not need any money."

"The business outlook is good. Last year was the biggest year the railways in Canada have experienced, and so far this year earnings have shown corresponding regularity over the corresponding periods of 1912."

"There has been over-speculation in real estate, but there is always soundness in lines of great business activity."

"On the Grand Trunk Pacific rails will be laid to the coast within a year. As a railroad, however, we are not in a position to take over the Transcontinental. The line built by the Dominion government, between Winnipeg and Montreal, N. B., is completed, no railroad ever is completed; more mileage must continually be added through branch line construction."

"So far as I can see now, there will be no hitch in the plans of the Grand Trunk Pacific to take over the Transcontinental. The line built by the Dominion government, between Winnipeg and Montreal, N. B., is completed, no railroad ever is completed; more mileage must continually be added through branch line construction."

"Regarding the stoppage of work on the Grand Trunk's New England extension, Chamberlin declared to say how the \$15,000,000 loan recently authorized by parliament would go to Grand Trunk Pacific construction, or to the construction of the new line in the market for funds. He admitted, however, that the loan would not complete the line."

CHICAGO CATTLE.
